A passionate *Computer Science* student, driven to deliver *exceptional results* through *hard work* and *dedication*.

Technical Skills

- **Languages:** Java, JavaScript, HTML5, CSS3, Python, SQL, C
- **Frameworks/Libraries:** Django, React.js, Express.js, Bootstrap
- **Databases:** MongoDB, MySQL
- **Cloud/Hosting:** Vercel, PythonAnywhere, GitHub Pages
- **Version Control:** Git, GitHub
- **Soft Skills:** Problem Solving, DSA, Team Collaboration, Agile Development

Projects

Full-Stack Projects

ChatUs – Real-Time Chat App — *React.js, Node.js, Socket.io, Express.js, MongoDB* Mar 2025 – Jun 2025

- Built a real-time messaging app supporting 1:1 and group chat using **Socket.io**.
- Integrated **JWT authentication**, user search, profile updates, and typing indicators.
- Used **MongoDB** and **Mongoose** for message storage and efficient queries.

BookSwap – Book Exchange Portal — *React.js, Node.js, MongoDB, Express.js*

Dec 2024 – Mar 2025

- Developed a role-based platform for seekers and owners with secure **JWT-based login**.
- Implemented **CRUD** operations for book listings and profile management.
- Integrated image uploads using **Multer** and added search/filter functionality.

Uber Clone – Ride Booking Platform — *React.js, Node.js, Socket.io, MongoDB*

Aug 2024 – Nov 2024

- Created a ride-booking system with live tracking using **OpenRouteService API**.
- Real-time updates via **Socket.io**, with user and driver dashboards.
- RESTful APIs and secure MongoDB storage for rides, users, and booking history.

LocalShop – E-commerce Web App — *Django, HTML, CSS, MySQL*

Mar 2024 – Jul 2024

- Implemented authentication, product catalog, and checkout with **Django views/models**.
- Used **Bootstrap** for responsive frontend and **MySQL** for data storage.

Amazon Myntra Clones + Mini Projects — *React.js, HTML, CSS, JavaScript, Python*

- Developed responsive clones of Amazon and Myntra with custom **UI/UX** and mock cart logic.
- Created a **React Calculator**, **To-Do App**, and **Mobile Aggregator** platform.
- Simulated a **Python**-based cricket game with interactive scoring logic.

Education

Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex

2022 – 2026

B.Tech in Computer Science and Engineering

Kolkata, India

- Expected Graduation: 2026
- SGPA: 8.142/10 (Up to 5th Semester)

Depal Baneswar Charuwala Vidya Mandir

2020 – 2022

Pure Science in Higher Secondary Education

Kolkata, India

- Completed: 2022
- Marks: 8.7/10

Certifications

- **Python to Access Web Data** – Coursera
- **Web Development with Django** – Ardent
- **Programming in Python** – Coursera
- **IOT** – Ardent
- **Cyber Security** – Ardent
